WARNING

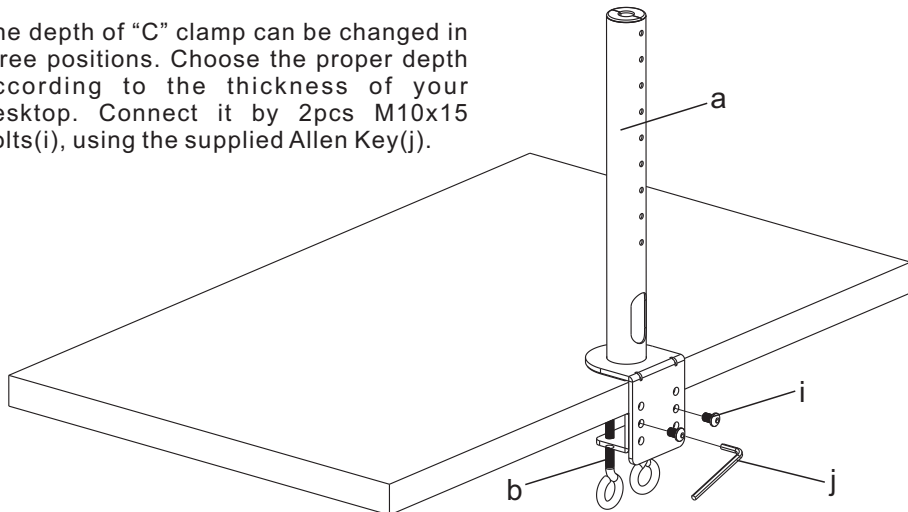

CAUTION!

This monitor desktop mount must be securely attached to the horizontal desk. If the mount is not properly installed it may fall, resulting in possible injury and/or damage.

Step 1

Install the “C” Clamp According to the Desktop Thickness

The depth of “C” clamp can be changed in three positions. Choose the proper depth according to the thickness of your desktop. Connect it by 2pcs M10x15 bolts(i), using the supplied Allen Key(j).

Step 2

Install Arm to the Tube Support

Install arm to the tube support, please make sure the wire clip in the downside. Fasten the bolt by screw driver.

Step 3

Mount the Monitor to VESA Plate

For Flat Back Monitor

For Curved Back Monitor

Step 4

Manager the Wires and Adjust the Turning Tension

Manager the wires by the wire clips, some wires can be hidden inside the pipe.

Remove the plastic cover, use the Allen Key(j) to adjust the turning tension.

Step 5

Fix the Tilt Angle and Adjust the Level of the Monitors

Fix the tilt angle
Remove the plastic cover, tighten the nut by the Wrench(l) to fix the tilt angle.

Level Adjustment
Turn the bolt counterclockwise to lower the center monitor, turn the bolt clockwise to raise the center monitor.
